Experience

Software Developer	**TEKsystems**	**Feb 2022 − May 2023**

- As part of an Agile/Scrum team, I refined project requirements and deployed updates to production through Microsoft Azure.
- Developed a scalable and adaptable to-do list application using React.js, C#, ASP.NET Core, Node.js, and MySQL, leveraging Object-Oriented Programming, SOLID, and clean code principles.
- Employed manual and automated testing methods with xUnit and Selenium to ensure software quality, reliability, and smooth user experiences.
- Demonstrated proficiency in using Git for efficient version control, working with RESTful APIs for seamless data exchange, and applying MVC architecture to ensure structured and maintainable code development.
- Developed a scalable and adaptable point of sales system in Java, utilizing Object-Oriented Programming, SOLID, and clean code principles.
- Developed responsive e-commerce websites using React.js, Java, Springboot, and MySQL, focusing on user-centered design for a seamless user experience.

CPE Sales Specialist	**Thomson Reuters**	**Mar 2021 − Feb 2022**

- Excelled in managing relationships with key decision-makers at various firms while working at Thomson Reuters.
- Focused on understanding clients' unique challenges and proposing tailored technology solutions.
- Leveraged strong communication and negotiation skills to consistently drive account growth, both by deepening existing partnerships and by identifying new sales opportunities.
- Exceeding their annual sales quota by nearly 10%.

Account Executive	**iStaff**	**Sep 2019 − Jul 2020**

- Excelled in building new relationships with key decision-makers at various companies
- Effectively matched UX designers, developers, testers, and other IT professionals to clients' specific needs, driving account growth through both existing partnerships and new sales opportunities
- Focused on understanding clients unique IT staffing requirements and providing customized solutions

Skills

- React.js, C#/.NET, Entity Framework, ASP.NET Core, MySQL/MSSQ, HTML/CSS, JavaScript, Java, Springboot
